

Dr. Robert Epstein Twitter Storms Hillary Clinton

August 20th, 2019

It began with President Donald Trump's tweet :

@realdonaldtrump

Wow, Report Just Out! Google manipulated from 2.6 million to 16 million votes for Hillary Clinton in 2016 Election! This was put out by a Clinton supporter, not a Trump Supporter! Google should be sued. My victory was even bigger than thought!

...to which the Hill pathetically responded:

@HillaryClinton

The debunked study you're referring to was based on 21 undecided voters. For context that's about half the number of people associated with your campaign who have been indicted.

Dr. Robert Epstein tweeted several hours later that he we preparing for battle...

.

[@HillaryClinton](#)

, whom I have strongly supported for many years, told blatant lies about me today. As a result, I have been subjected to widespread condemnation by mainstream media. I'm going to fight this. Stay tuned tomorrow for my first-ever twitter storm.

2:18 AM · Aug 20, 2019

..., then it began ...

Tweet storm starting now - getting interrupted from time to time by calls from reporters... I've been caught in the middle of an exchange of tweets between 2 media titans,

[@HillaryClinton](#) & [@realDonaldTrump](#)

[#Trump](#)'s tweet was slightly wrong. [#Hillary](#)'s tweet was shameful.

4:10 PM · Aug 20, 2019

[#Trump](#) tweet, point #1: I've never said that [#Google](#) deliberately "manipulated" the 2016 election, but I measured substantial pro-[#Hillary](#) bias in [#Google](#)'s search results by preserving & analyzing 13,207 election-related searches & the 98,044 web pages linked to those searches.

4:14 PM · Aug 20, 2019 ·

[#Trump](#) tweet, point #2: The level of pro-[#Hillary](#) bias I found in [#Google](#)'s search results - absent on [#Bing](#) & [#Yahoo](#) - was enough to convince between 2.6 & 10.4 million undecided voters to vote for Hillary. .

[@realDonaldTrump](#)

said 16 million; that's wrong.

4:19 PM · Aug 20, 2019

[#Trump](#) tweet, point #3: It doesn't matter whether the bias in [#Google](#) search results was deliberate or not. Once it appeared - which it did at least 6 months before the election - it began shifting opinions & votes without people's knowledge & without leaving a paper trail.

4:22 PM · Aug 20, 2019

If you want the full story about my 2016 election monitoring project, read my essay, "Taming Big Tech: The Case for Monitoring," published last year:

4:28 PM · Aug 20, 2019

Now, switching to [@HillaryClinton](#)

This is going to hurt me to write, because I & my whole extended family have been strong supporters of the Clintons for decades. I have a framed, signed letter from [#Bill](#) on the wall near my desk. But [#Hillary](#) should be ashamed of herself.

4:33 PM · Aug 20, 2019

[#Hillary](#) has long depended on [#Google](#) for both money & votes. Her largest donor in 2016 was Alphabet/Google. Her Chief Technology Officer during the campaign was Stephanie Hannon, a former Google exec. And then there's [#EricSchmidt](#), longtime head of Google - *the guy in the pic*:

4:47 PM · Aug 20, 2019

A leaked email showed that in 2014 [#Google](#)'s [#EricSchmidt](#) offered to run [#Hillary](#)'s tech campaign (see pic). In 2015, Schmidt in fact funded The Groundwork, a highly secretive tech company, the sole purpose of which was to put Clinton into office.

About 96% of 2016 campaign donations from [#Google](#) employees went to [#Hillary](#). And [#ElanKriegel](#), Hillary's Chief Analytics Officer, credits his 2012 tech team, informally supervised by [#EricSchmidt](#), for half of Obama's win margin: nearly 2.5 million votes. psmag.com/social-justice/obamas-big-data-inconclusive-results-political-campaigns-72687...

[#Hillary](#): If my work has been "debunked," why was it included in a volume just published by [#Oxford](#) U.? Why have I been invited to speak about it at prestigious venues worldwide: [#Stanford](#) U., [#Yale](#) Law School (where both you & Bill went), even our [#Senate](#) (where you served)?

6:09 PM · Aug 20, 2019

[#Hillary](#): I know you're in [#Google](#)'s pocket, but for the sake of our [#democracy](#), I urge you listen to my recent Congressional testimony (c-span.org/video/?c4807816/congressionalhearing-16july2019-testimonybydrrobertepstein...) & to scan the 58 essays & conference papers I list at the end of my written testimony: judiciary.senate.gov/imo/media/doc/Epstein%20Testimony.pdf...

6:20 PM · Aug 20, 2019

[#Hillary](#): If you examine my work carefully, you will find that it adheres to the very highest standards of scientific integrity. You will also conclude, I believe, that [#Google](#) poses a serious threat to the free-&-fair election & to human autonomy. See

[#Hillary](#): [#Google](#) poses 3 serious threats to humanity:

1) an obscene level of [#surveillance](#) across 200+ platforms, 2) the power to determine what content 2+ billion can or can NOT see ([#censorship](#)) ([usnews.com/opinion/articles/2016-06-22/google-is-the-worlds-biggest-censor-and-its-power-must-be-regulated...](https://www.usnews.com/opinion/articles/2016-06-22/google-is-the-worlds-biggest-censor-and-its-power-must-be-regulated...)) & 3) invisible [#manipulation](#) on a massive scale.

7:06 PM · Aug 20, 2019

[#Hillary](#): Is that what you want your legacy to be? Whistleblowers & leaks from [#Google](#) have confirmed that the company blacklists, re-ranks & uses "ephemeral experiences" (which I study) to control people worldwide. Do you approve?

7:14 PM · Aug 20, 2019

[#Hillary](#): If Big Tech cos. support the same candidate in 2020, they can shift 15M votes her way without people knowing how the shift occurred. If you had a choice between preserving [#democracy](#) & putting your candidate in office, which would you choose?

7:19 PM · Aug 20, 2019

[#Hillary](#): Among other tools, they can use "ephemeral experiences"-a term from a [#Google](#) email that leaked to [@WSJ](#) in 2018-to shift votes without leaving a paper trail. Ephemeral experiences like those search results I found that were biased in your favor.

7:25 PM · Aug 20, 2019

[#Hillary](#): If I haven't yet convinced you that the tweet you sent about me yesterday was unjustified & deeply flawed, please read these recent comments on my work by [#ChuckNorris](#). He might be a lowly [#conservative](#), but he still kicks butt. [wnd.com/2019/08/forget-russia-watch-big-tech/...](http://wnd.com/2019/08/forget-russia-watch-big-tech/)

7:35 PM · Aug 20, 2019

Finally, [#Hillary](#): I have always admired you as a self-sacrificing person who is trying to improve people's lives, and I have tried to emulate you in these ways - as best I can. I also know you've sometimes been punished for your good deeds. I can relate. With admiration,

ALSO NOTE WORTHY,,,

back on the 13th of August

Dr. Robert Epstein tweeted this...

It's not just one study. It's dozens of experiments conducted with 10s of thousands of participants in 5 national elections. Big Tech can shift 15 million votes in 2020 with no one knowing & without leaving a paper trail.
