Chapter I: The History of YouTube

YouTube is a video-sharing website, created by three former PayPal employees (Chad Hurley, Steve Chen, and Jawed Karim) in February 2005 and owned by Google since late 2006, on which users can upload, view and share videos.

Hurley had studied design at Indiana University of Pennsylvania, while Chen and Karim studied computer science together at the University of Illinois at Urbana-Champaign.

The company is based in San Bruno, California, and uses Adobe Flash Video and HTML5 technology to display a wide variety of user-generated video content, including movie clips, TV clips, and music videos, as well as amateur content such as video blogging, short original videos, and educational videos.

Most of the content on YouTube has been uploaded by individuals, although media corporations including CBS, the BBC, Vevo, Hulu, and other organizations offer some of their material via the site, as part of the YouTube partnership program.

Unregistered users can watch videos, while registered users can upload an unlimited number of videos. Videos considered to contain potentially offensive content are available only to registered users at least 18 years old. YouTube, LLC was bought by Google for US \$1.65 billion in November 2006 and now operates as a Google subsidiary.

Important YouTube Events:

- YouTube began as a venture-funded technology startup, primarily from an \$11.5 million investment by Sequoia Capital between November 2005 and April 2006.
- YouTube's early headquarters were situated above a pizzeria and Japanese restaurant in San Mateo, California.
- The domain name www.youtube.com was activated on February 14, 2005.
- The first YouTube video was entitled “Me at the zoo,” and shows co-founder Jawed Karim at the San Diego Zoo. The video was uploaded on April 23, 2005, and can still be viewed on the site.
- YouTube offered the public a beta test of the site in May 2005, six months before the official launch in November 2005. The site grew rapidly, and in July 2006 the company announced that more than 65,000 new videos were being uploaded every day, and that the site was receiving 100 million video views per day.
- According to data published by market research company ComScore, YouTube is the dominant provider of online video in the United States, with a market share of around 43 percent and more than 14 billion videos viewed in May 2010.
- In October 2006, Google Inc. announced that it had acquired YouTube for \$1.65 billion in Google stock, and the deal was finalized on November 13, 2006.
- In June 2008, a Forbes magazine article projected the 2008 revenue at \$200 million, noting progress in advertising sales.
- YouTube entered into a marketing and advertising partnership with NBC in June 2006.

- In November 2008, YouTube reached an agreement with MGM, Lions Gate Entertainment, and CBS, allowing the companies to post full-length films and television episodes on the site, accompanied by advertisements in a section for US viewers called "Shows."
- In November 2009, YouTube launched a version of "Shows" available to UK viewers, offering around 4,000 full-length shows from more than 60 partners.
- In January 2010, YouTube introduced an online film rentals service, which is available only to users in the US, Canada and the UK as of 2010. The service offers over 6,000 films.
- In March 2010, YouTube began free streaming of certain content, including 60 cricket matches of the Indian Premier League. According to YouTube, this was the first worldwide free online broadcast of a major sporting event.
- In May 2010, it was reported that YouTube was serving more than two billion videos a day, which it described as "nearly double the prime-time audience of all three major US television networks combined."
- In May 2011, YouTube reported in its company blog that the site was receiving more than three billion views per day.
- In November 2011, the Google+ social networking site was integrated directly with YouTube and the Chrome web browser, allowing YouTube videos to be viewed from within the Google+ interface.
- In January 2012, YouTube stated that the figure had increased to four billion videos streamed per day.
- In January 2012, it was estimated that visitors to YouTube spent an average of 15 minutes a day on the site.
- In May 2013, YouTube launched a pilot program to begin offering some content providers the ability to charge \$0.99 per month or more for certain channels, but the vast majority of its videos would remain free to view.

Chapter II: Why YouTube?

YouTube simply is the greatest video-sharing website ever.

People love video, that's why videos have become a strong and highly effective marketing weapon in today's Internet.

Unregistered users (people that don't have a YouTube account) have the ability to watch videos, while registered users can upload an unlimited number of videos and share their existing videos with the world by recording a video.

Most of the content on YouTube has been uploaded by individuals, although media corporations including CBS, the BBC, Vevo, Hulu, and other organizations offer some of their material via the site, as part of the YouTube partnership program.

YouTube, LLC was bought by Google for US\$1.65 billion in November 2006 and now operates as a Google subsidiary. Paying that amount of money plus the money that Google is actively investing in YouTube can easily tell us the unlimited marketing potential that it may have in behalf of any business that decides to get the most out of its services

The following eye opening YouTube facts will tell you specifically why YouTube is one of the greatest inventions for the online marketing world

Eye Opening YouTube facts:

When you see data like this you really have to believe that there is a lot of money to be made in here. Many people might be talking about it, but very few can really teach how to productively position your business there and make money with it at the same time.

Step 2: Create your Video

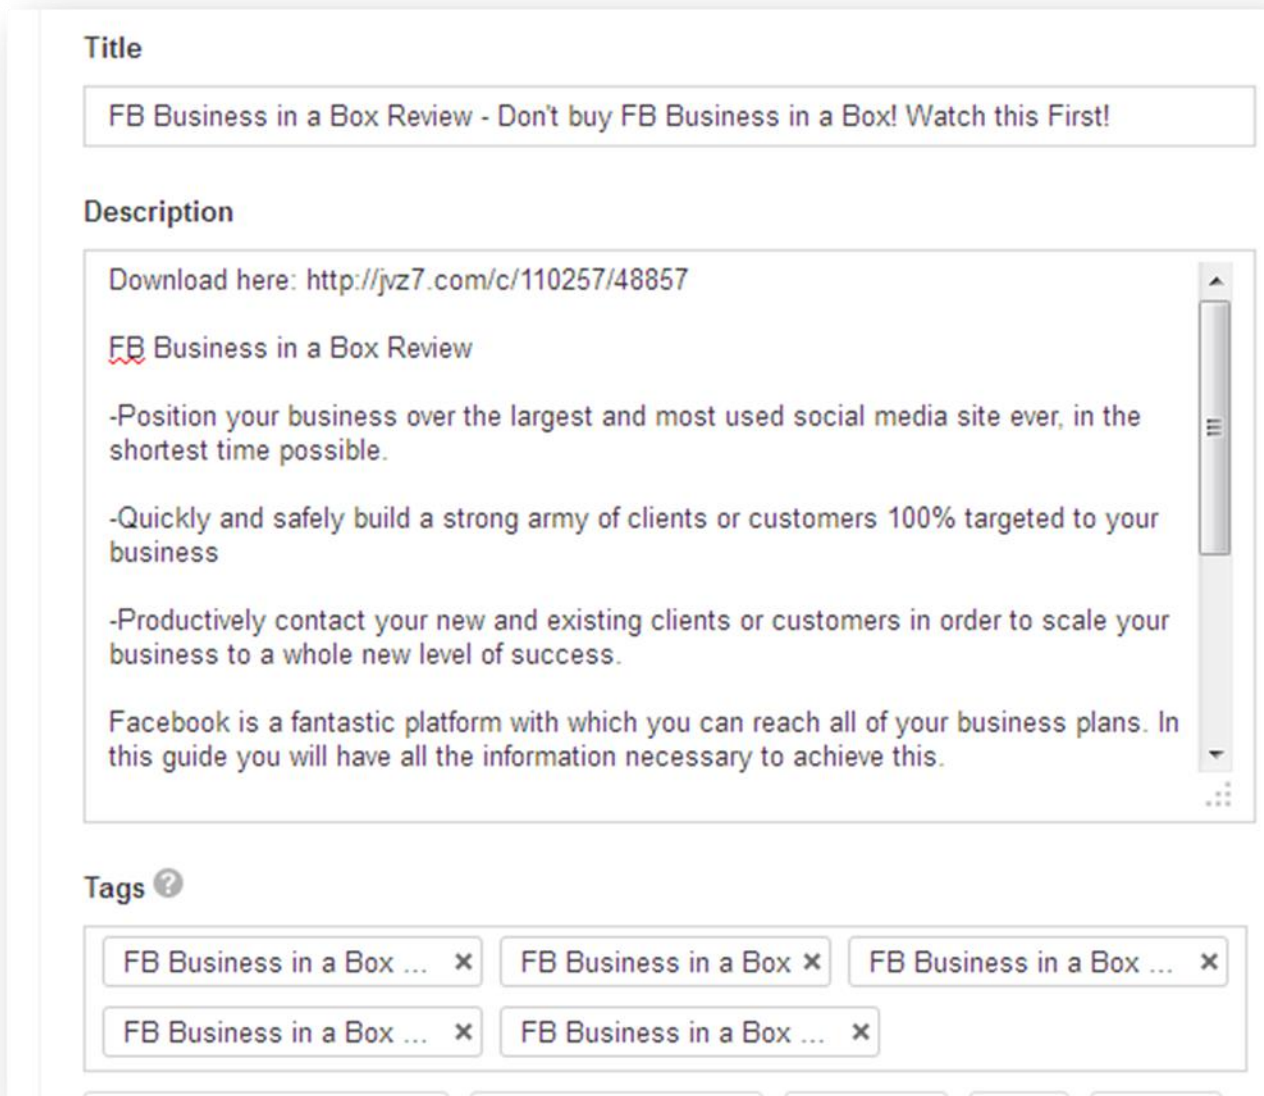

Now you should create a really attractive video talking about the product. Get some positive and negative (but not that bad) opinions. Most of the product launchers offer a free sample of their product. That will be enough for you to get a really great review. You can outsource this video review to Fiverr.com as well:

Something really great to do is to offer additional great bonuses for people that decide to buy from your link which will be located at the description box of your video.

Step 3: Optimize your Video

What you need to do here is optimize a few parts of the video. Those parts are: Title, Description, and Tags. This is the first thing that it will take to get to Top Ranking Magic on Google and YouTube

Step 4: Advertise your Video

What you will do here is to apply four more important top ranking factors that will provide the ranking miracle as well. Those factors are Views, Comments, Likes and Backlinks.

For that we can [Fiverr](#) it as well:

Finally you will start watching top rankings like this in the same day:

Trick #2: CPA Crazy Money Making Machine

Step 1: Chose a high converting CPA offer

First of all you need to pick a hot CPA offer. In this example I will use MaxBounty.com. Let's look for something free, easy to get and attractive like an iPhone, laptop, iPad, coupons, etc.

TWO: TRAFFIC TYPE

| 3285 | Winning Surveys - Win an iPhone 4 | \$0.02 | \$2.25/lead | ✓ | ✗ | ✓ | ✓ | ✓ | ✓ | ✗ |

These types of offers convert great because people won't have to buy anything. They just need to put down their email and that does it.

As you can see, Social Traffic is allowed. That's what we are looking for too.

Step 2: Pick a hot keyword

Now you will need to find the exact audience that perfectly fits this offer. Our intention is to rank in the Google.com using our YouTube video, for that reason we need to go to the brand new Google Keyword Planner to search for a hot keyword with a lot of searches.

Go to the [Google Keyword Planner](#) and login with your Gmail account (It's free). Then click on "Search for keyword and ad group ideas":

The screenshot shows the Google Keyword Planner interface. At the top, there is a search bar with the text "free iphone" and a "Get ideas" button. Below the search bar, there are two tabs: "Ad group ideas" and "Keyword ideas". The "Keyword ideas" tab is selected. Below the tabs, there is a table with the following columns: "Search terms", "Avg. monthly searches", "Competition", "Avg. CPC", and a dropdown menu. The table contains one row for "free iphone" with 12,100 searches, High competition, and an Avg. CPC of \$0.99. Below this table, there is a navigation bar showing "1 - 1 of 1 keywords". Below the navigation bar, there is another table with the following columns: "Keyword (by relevance)", "Avg. monthly searches", "Competition", "Avg. CPC", and a dropdown menu. This table contains six rows of keyword suggestions:

| Keyword (by relevance) | Avg. monthly searches | Competition | Avg. CPC |
|---------------------------|-----------------------|-------------|----------|
| free ringtones for iphone | 33,100 | Medium | \$0.21 |
| iphone 4 for sale | 27,100 | High | \$1.21 |
| free iphone ringtones | 27,100 | Medium | \$0.27 |
| iphones | 27,100 | High | \$1.62 |
| unlocked iphone 4s | 22,200 | High | \$0.35 |
| verizon iphone | 22,200 | High | \$0.48 |

I have selected 2 keywords to start out: "free iPhone" and "free iPhone 5."

Now we need to make sure that Google’s Brain is already coded to place YouTube videos in the top of the search engines for your chosen keywords. That way you have a lot more changes to be there like others have done already. Just perform a normal search and check if there is any YouTube video at the top:

Create a really cool and attractive iPhone 5 Review video with a call to action to get it for free. You can outsource this to Fiverr.com as well:

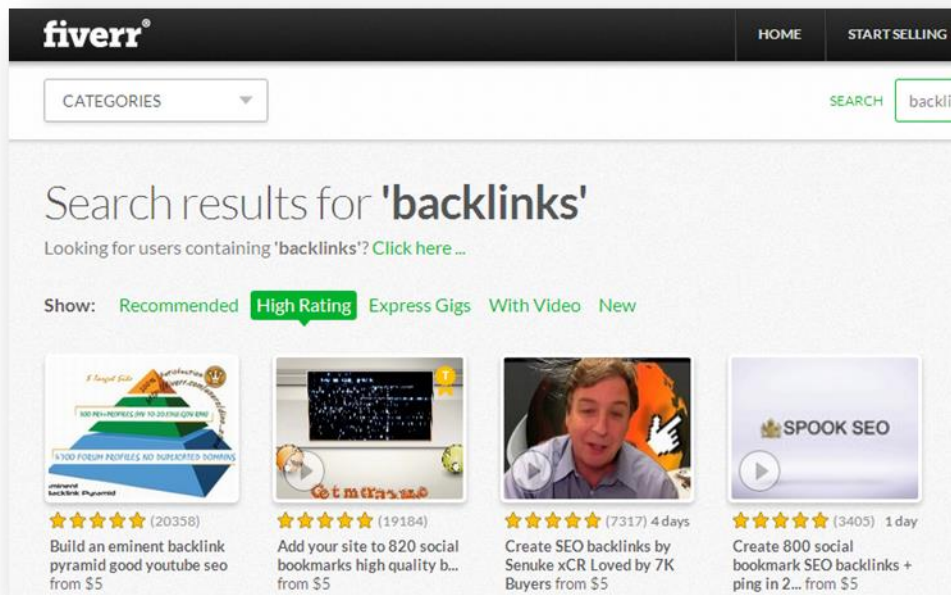

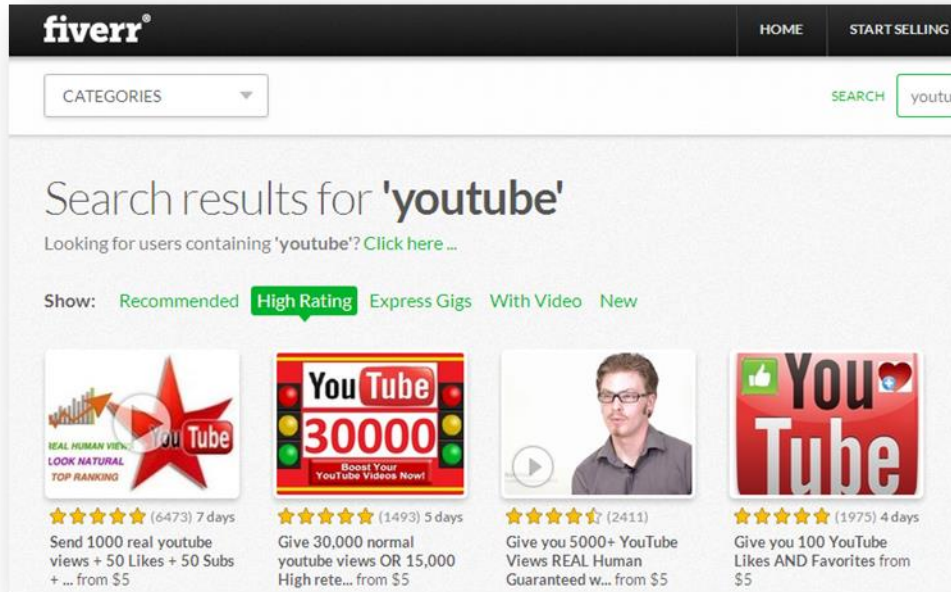

Step 4: Optimize your Video

Remember to place you hot keyword in the Title, Description, and Tags sections. You can include many other keywords as well so you may rank for other keywords like “free iPhone 5.” Don’t forget to place a Domain redirecting to your CPA offer in the description box. Something like: www.getafreeiphone.com

Step 5: Advertise your Video

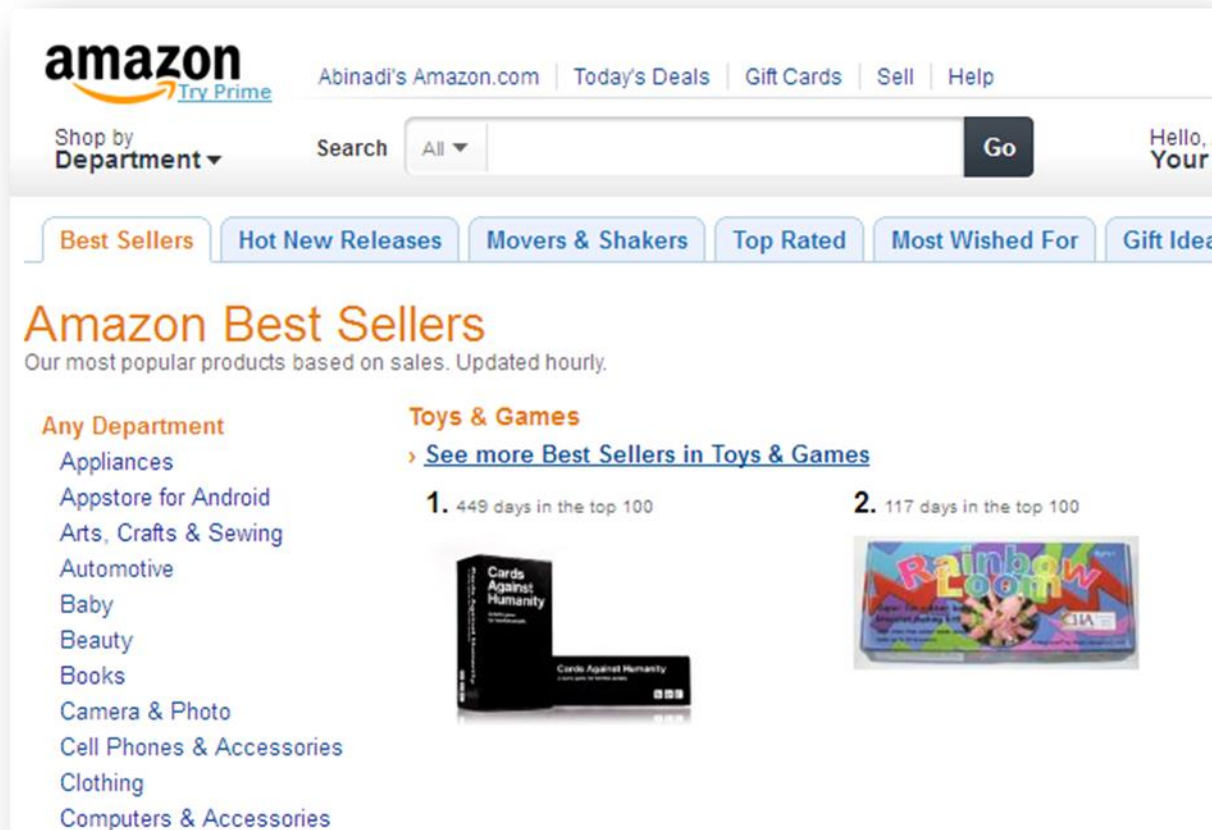

Now you will need to advertise like crazy using Fiverr.com as well. The great difference now is that you will advertise your CPA offer to all of the social backlinks you will be getting from Fiverr.

Trick #3: Amazon Crazy Money Making Machine

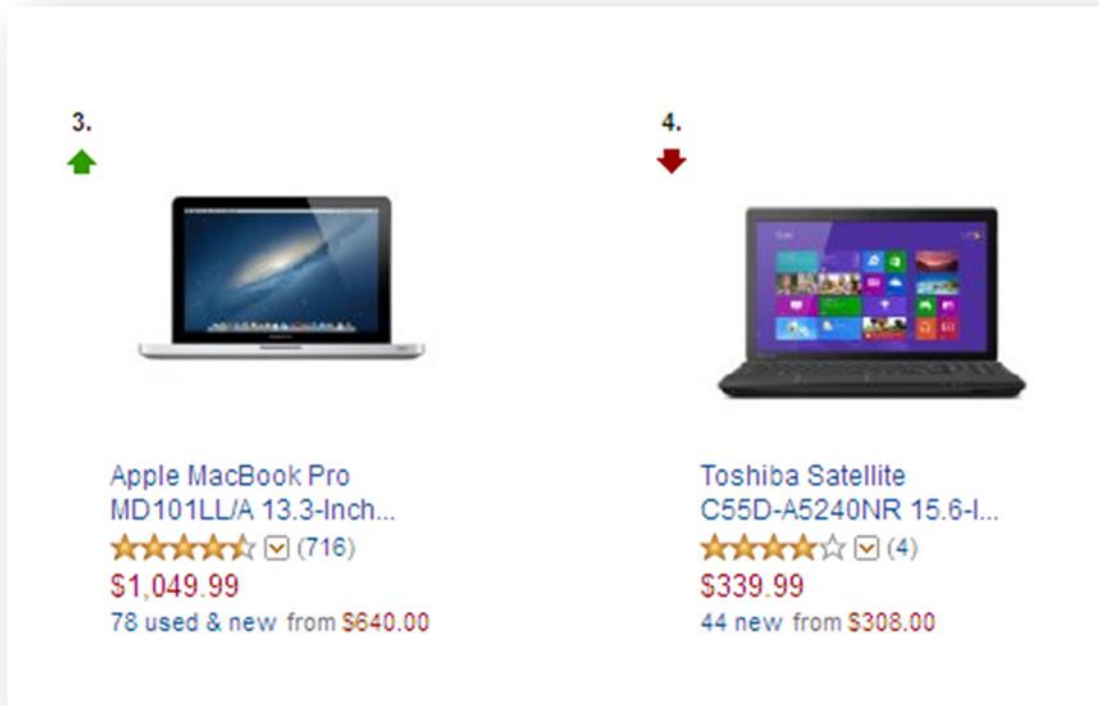

1. Search for a Hot Amazon Product:

There is a really great section on Amazon where you may find the best selling products in every category. <http://www.amazon.com/gp/bestsellers>

Here you can pick any product of your choice, all of them are hot selling and that's very important, so we can connect them to the exact audience that is waiting to see them and buy them.

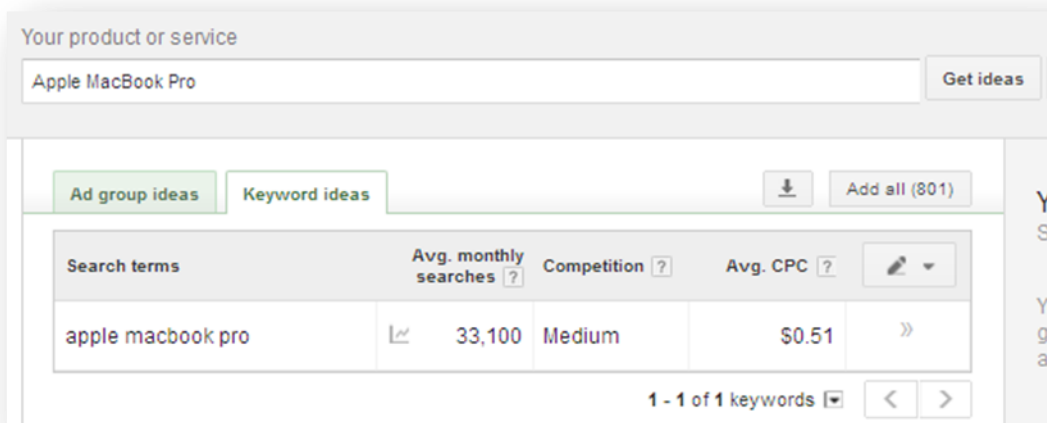

I like to go after the high priced products. Remember that expensive products don't exist; you just need to advertise to the right audience.

716 reviews is a lot of people. The \$1,000 price will bring us a really nice commission as well.

Step 2: Pick a hot keyword

Now let's find the audience that perfectly fits this offer and that already knows these types of products are high priced. Go to the [Google Keyword Planner](#) and search:

Doing some research I decided to go after a really cool keyword:

| Search terms | Avg. monthly searches | Competition | Avg. CPC |
|--------------------|-----------------------|-------------|----------|
| macbook pro review | 4,400 | Low | \$0.44 |

This is a really cool example that shows you that you need to be creative and think what people would type into the search engines. “Apple MacBook Pro Review” had only 590 searches a month. Because people already know that a MacBook is from Apple, they just avoid putting that word into their searches.

And here we find some brand new, weak and easy to rank videos as well.

Step 3: Create your Video

On this one you may do something really cool as well. There are many models of MacBook Pros on Amazon, and on YouTube as well. What you need to do here is to convince the viewers that this version (Apple MacBook Pro MD101LL/A 13.3-Inch Laptop) is the best option for them.

The way you are going to do that is by telling your Fiverr guy to create the review by browsing and talking about the product directly in the Amazon.com product page. That will be like a magnet for the viewers to go to the page and check it for themselves clicking the URL in the description box of your video.

Trick #4: Buy Top Video Rankings dirt cheap

This technique will make you crazy. What you will do here is to find highly viewed videos on YouTube and pay a fee to the owner of the video to place YOUR URL into the description box.

Step 1: Search for a highly searched video of your choice.

The screenshot shows a list of YouTube search results for 'iPhone 5'. The video 'iPhone 5 vs. iPhone 4S' by 'pocketnowvideo' is highlighted with a red dashed border. Other visible results include 'Apple: iPhone 5 New Features, Release...', 'iPhone 5 for Lunch! Cooking Test!', 'Samsung Galaxy S4 vs Apple iPhone 5', and 'Official iPhone 5 Trailer'.

| Video Title | Channel | Views | Duration | Quality |
|--|--------------------|------------|----------|---------|
| Apple: iPhone 5 New Features, Release... | Season 1 Episode 4 | | 1:29:35 | |
| iPhone 5 for Lunch! Cooking Test! | TechRax | 301 | 2:29 | NEW, HD |
| Samsung Galaxy S4 vs Apple iPhone 5 | JTechAppleTV | 1,620,929 | 19:17 | HD |
| iPhone 5 vs. iPhone 4S | pocketnowvideo | 6,155,662 | 17:37 | HD |
| Official iPhone 5 Trailer | touchgameplay | 10,399,029 | 6:52 | HD |

Step 2: Find out if the video doesn't have a link in the description box

Step 3: Contact the video owner offering a really good deal

Step 4: Send him your link

Step 5: Wait to be amazed with the results.

Trick #5: Tagging Miracle

For this last trick I will show you something a lot of people miss doing. A lot of people know how to rank videos on Google, but not a lot know how to get the most out of video tagging.

What we want to do is if to get the advantage of the views that other videos are getting again, but with a different approach.

We will use our tags in order to create some sort of connection with those videos at the top, and in that way get part of their buzz to our video.

YouTube videos are categorized by Video Tagging instead of views. For that reason we will piggy back onto those video tags used by the top videos.

Let follow these simple steps now...

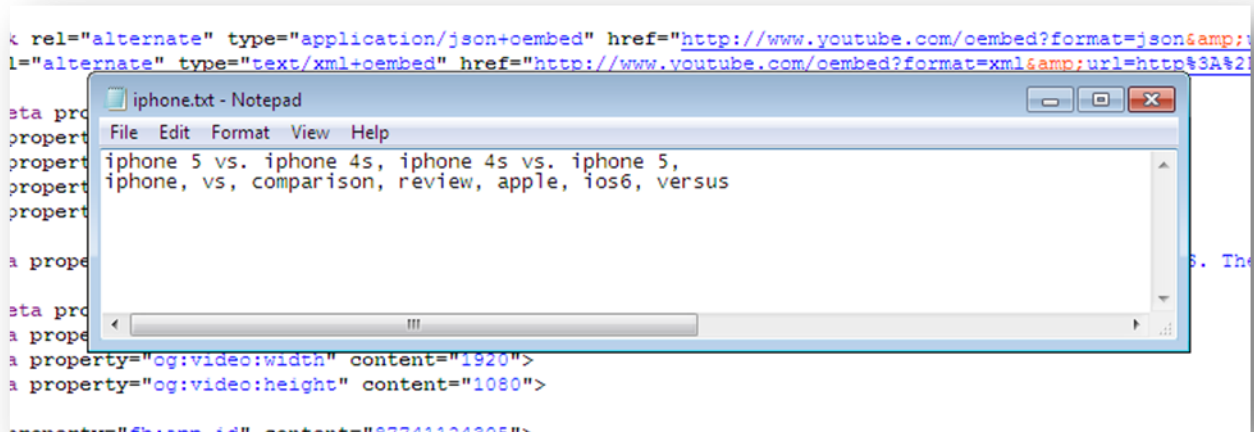

Step 1: Search for a highly searched video of your choice.

Step 2: Check the video tags. You can do this clicking on ctrl + U and searching for the “keywords” tag inside the course code.

```
10 <title>iPhone 5 vs. iPhone 4S - YouTube</title><link rel="search" type="applicatio
11
12 <meta name="description" content="In this video we compare the new iPhone 5
13
14 <meta name="keywords" content="iphone 5 vs. iphone 4s, iphone 4s vs. iphone
15
16 <link rel="alternate" type="application/json+oembed" href="http://www.youtub
17 <link rel="alternate" type="text/xml+oembed" href="http://www.youtube.com/oembed
18
19 <meta property="og:site name" content="YouTube">
```

Step 3: Use their tags that might be related to our video

Step 4: Place the tags into your own video’s tags

Step 5: Wait to be amazed with the results.
